

Remember – Keep playing Spelling Shed!

Hive Games tomorrow, our final games of the year!

1st code at 9:45am for a 10am game.

2nd code at 11:45am for a 12pm game.

Reading Activity

What will I be when I grow up?

When I grow up I'll work with animals. I don't know which job yet.

Maybe like my brother. He's a special vet.

He looks after scary snakes, some just out of eggs.

He says that snakes are easy as they don't have any legs.

My father is a scientist. He works to save rare birds.

Some are really clever and can even say some words.

'How do you do?'

My mother is a dog groomer. She loves dogs big or small.

Once she styled a poodle. It looked just like a ball.

My sister, she trains dolphins. They practise in the pool.

She hears the dolphins talk and sing. That sounds really cool!

So many animal jobs to choose but which one's right for me?

Because I'm only ten years old, I'll have to wait and see!

Short story

Write about people you know and their jobs.

Eg- Mrs Weeks is a head teacher. She is the head of Poverest School.

My _____ is a _____.

He/She _____

My _____ is a _____.

He/She _____

My _____ is a _____.

He/She _____

Afternoon Activities

Mary Anning was born on 21 May 1799. She lived in the English seaside town of Lyme Regis in Dorset.

Mary would spend her time searching the coast looking for what she called '**curiosities**'. Later in her life, as she developed a better understanding of her finds, she realised they were actually **fossils**.

Over the course of her life she made many incredible discoveries. This made her famous among some of the most important scientists of the day.

Watch this BBC video about Mary Anning to find out more. There is also a quiz to play.

<https://www.bbc.co.uk/bitesize/topics/zd8fv9q/articles/zf6vb82>

Mary Anning found a fossil for an Ichthyosaur, Scientists have imagined what an Ichthyosaur may have looked like. This is a computer drawing as they did not have cameras to take pictures in 1799.

Watch this YouTube video which has a tutorial for drawing an Ichthyosaur and try following along!
