

THEME PARK
YEAR THREE
PROJECT

WEDNESDAY

Reading Activity

Please continue to read your own book.

Writing Activity

Unfortunately, your new theme park has caused some problems. This letter was received from an angry neighbour yesterday:

NOTES

Dear Poverest Primary School.

I am writing on behalf of myself and the rest of our neighbourhood to tell you that we do NOT want a new theme park built.

We live in a beautiful part of the country and you want to destroy it with huge rollercoasters and smelly food. We are not happy AT ALL.

I want to know what YOU are going to do to keep us happy. You could consider giving people who live nearby a discount on the tickets and possibly consider replanting some of those trees you cut down!

If you refuse to reply, we will tell everyone that you are a bad company and NOT to visit your theme park.

I await your response.

Poverest Neighbours and Friends.

You need to decide how you want to reply.

You can either be nice and give the neighbourhood a discounted ticket or maybe a free day pass. You could also plant some trees or make a donation to a wildlife company.

Or you could refuse to help them. It is not your problem that they are unhappy and if they are that unhappy then they will have to move house.

Decide if you are going to help or refuse to help and write a letter of response.

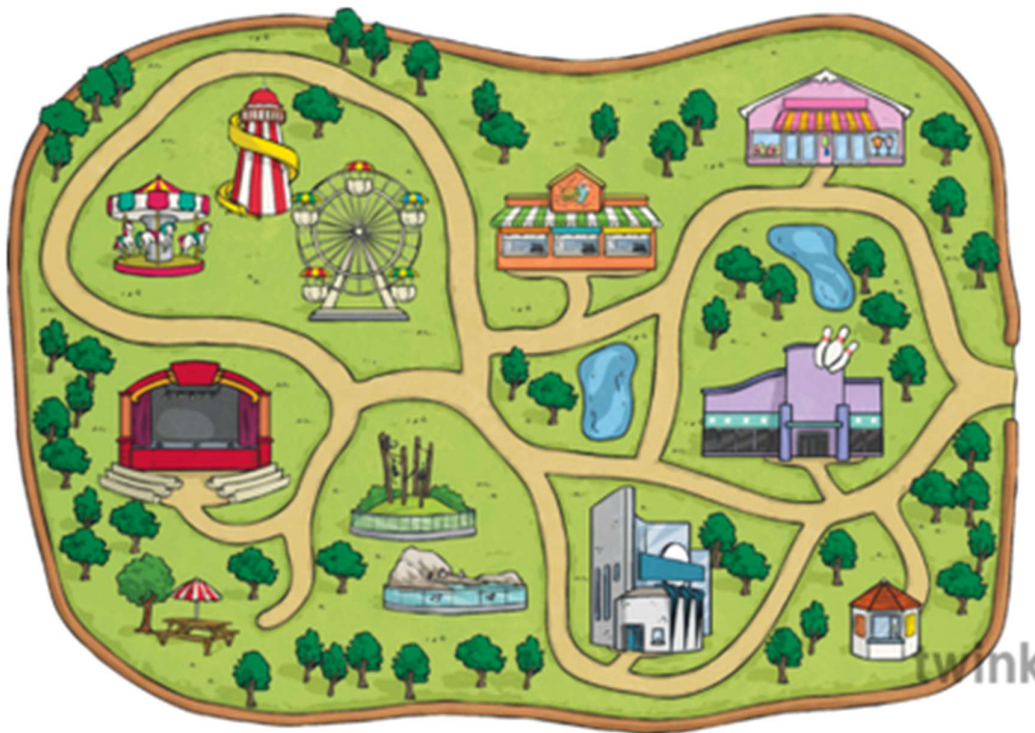

You need to include:

- Dear...
- A 2 or 3 lined introduction.
- Your response to their letter.
- Yours sincerely...

Maths Activity

We need to design a map for the theme park. Lots of theme parks have maps to help people find their way around the park. The map is usually pictures and you might have a key explaining what each picture means.

For example:

You can either draw your map or a **2Do** has been set on **Purple Mash**. The map template is for a pirate map but you can draw anything you like on the map!

Afternoon Activity

This afternoon, you are going to design and/or make part of your theme park. You could:

- Design and create the ticket to your theme park.
- Build a rollercoaster from lego or on Minecraft.
- Make a menu for your food stand with what you will sell and prices.
- Write a list of songs that will play through your theme park.
- Create your own rollercoaster!

Joke of the Day

What does a dentist do on a rollercoaster?

He braces himself!
