# Expanding Poverest Primary School

**One of the top Bromley Schools**

**The only school in South East England shortlisted for the TES Early Years Setting Award 2015**

Due to popular demand with those parents wanting high quality education within a family environment, we have decided to increase our classes to two forms of entry.

Since 2014 we have had an increased roll, with two forms of entry in Reception, as we don't like having to turn families away.

Insufficient school places for residents across London has meant that Local Authorities have had to design plans to build new schools and expand others. Increases in birth rate and numbers of families moving into the area has meant that some residents living in close proximity to Poverest Primary school are denied places.

Poverest Primary School has been identified as a school with potential to be enlarged. Therefore, there will be a consultation evening for parents and residents between **3-7pm** at the school on **Tuesday 8<sup>th</sup> December** where you can view the proposals for the scheme and talk to the Council Officers and Consultant/Architects involved, prior to the proposals going forward to a formal planning application.

Being close to a station and within walking distance of a large number of bus routes, we want to cater for all working parents and so within our proposals there is a planned Early Years Centre with baby care and child care up to school age. We want our parents to be able to leave their children safe and happy for 48 weeks of the year, with Breakfast, Afterschool and Holiday Clubs provided.

**Do come along and see what you think about our exciting plans**
