

Music

Music is taught by BYMT weekly.

In Year 6, the children will be completing a music project. This will involve composition, lyrics and the use of online music composition such as GarageBand. In addition to this, there will also be singing assemblies, as well as composing and listening sessions.

Computing

In computing, we will be teaching the children to explore text-based programming with Python; the children will learn how syntax and nested loops control program outcomes and develop their ability to identify and fix syntax and logic errors through careful debugging.

Science

In science, we will be following the Kapow science scheme where we will be looking at Living things: Classifying big and small. In this unit, the children will be looking at the scientist Carl Linnaeus and the system that he developed. Key knowledge that the children will learn is the different characteristics found in vertebrate and invertebrate groups, as well as being able to describe the plant kingdom. We will also be covering the topic light and reflection where we will explore how light travels in straight lines, whilst making observations of shadows and reflection.

RE

This term we will focus on the big question 'Why does religion look different around the world?' and how religions show their beliefs.

Year 6

Autumn Term

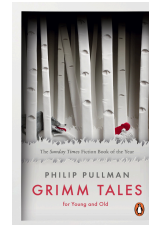

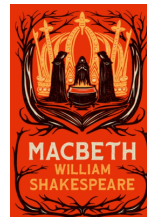

PE is every Monday and Friday.

Please bring in reading books every day.

Homework and reading records (with a minimum of 4 signatures) are due on Friday.

English

Our Core texts for this term are The Grimm Tales and Macbeth. Using these texts, the children will write for a variety of different audiences and purposes, including newspaper articles, persuasive letters, narratives and diary entries. We will also have an exciting trip to Shrek's Adventure to fully immerse the children in fairytales.

PSHE

In PSHE, we will be exploring how to be respectful to everyone whilst challenging stereotypes. Also, we will discuss how we can stand up for ourselves and others.

Geography

Our topic in geography this first half term is: Why does population change? Throughout this unit, we will explore how the population has changed from the early 1500s. The children will gain the knowledge to answer a variety of questions on how birth and death rates have changed the population across the world whilst discussing why people live in certain areas of the world.

History

We will be learning all about the Victorians and how they helped to shape the country that we know today. We will be looking at the census, working life for a child, school life, crime and punishment and partaking in a local enquiry to find out who lived in our local area.

Art/DT

We are following the Kapow curriculum where we will be designing and making bags and learning various photography skills through art

Maths

This term, we will learn about Place Value, Addition, Subtraction, Multiplication, Division and Measures and Data.
